## At **ACE INSPIRE**

our English course is designed to meet the needs of those aiming to use English for professional purposes. It focuses on everyday language in context in an English-speaking environment

In addition to helping candidates discover the meaning of many widely used everyday expressions, the course provides valuable information about the social and business conventions of spoken English such as, changing a topic of conversation, agreeing and disagreeing politely, checking meaning, giving feedback and delivering 'small talk' to friends and colleagues

This skills-based course addresses the best way to avoid misunderstandings in conversations, particularly in a professional environment

We also target in enabling learners to express themselves more clearly and confidently, by training them in key areas of pronunciation. Certain pronunciations common among non-native speakers of English are discussed to show how they can be easily misinterpreted

Our integrated syllabus with motivating topics and clearly focused tasks make for effective teaching and learning of the highest standard

Our course offers an authoritative integrated syllabus, motivating topics and clearly focused tasks. It all make for effective teaching and learning of the highest standard with the latest technology. The accompanying audio-visual aids would introduce students to a variety of English accents including North America, Australia, South Africa, as well as a variety of British English accents. Their training would be further consolidated by acclimatising them to the various audio-visual recordings of news construction, current affairs, chat shows and soap operas of the western countries
